

# SILENT SHIFT UPGRADE PROGRAM

Owners with traditional cone clutch sterndrives can now upgrade to Volvo Penta's new Silent Shift technology. The Silent Shift upper gear unit includes a multi-plate clutch which improves the cone clutch clunk on SX-A, DPS-A and newer sterndrives plus all Forward Drives. All it takes is changing out the upper gear unit.

# SAVE 25%

The new Silent Shift upper gear unit upgrade is mated with the lower gear unit of your existing drive and carries the 2 year Parts & Accessory warranty when installed by an authorized Volvo Penta dealer.
